English

Mr.Kridi I.

Audience: M1 software engineer
University: Djilali Bounamaa
Date: 09 / 04 / 2024

Expected work

showcase technical communication abilities through a series of presentations on various IT topics. Each student will be assigned a project theme from the list below and will be responsible for preparing and delivering a presentation to the class.

The expected work for each group includes:

- Selecting one project theme from the list provided.

- Creating a well-structured presentation using PowerPoint or Google Slides.

- Clearly explaining the project theme, including definitions, principles, tools, and applications.

- Demonstrating effective English language skills in presenting to the class.

- Participating in Q & A sessions to engage with classmates and receive feedback.

Deadline: last week before the exams
